FRESHMART SUPERMARKET SALES DASHBOARD

Business Insights

Lagos had the most sales.

Cash was the preferred method among customers.

Highest monthly transaction was recorded in January.

April was the second highest revenue month.

The highest revenue product was rice.

Ife city's branch recorded the lowest sales.

Recommendation

Since Lagos generated the most sales, I recommend allocating more stock and marketing resources to sustain the momentum.

Given that cash is the dominant payment method, ensure adequate cash-handling processes are in place.

Since January recorded the highest monthly transactions, prepare inventory and staffing in advance for that period each year to meet demand.

As April is also a strong revenue month, analyze what drives sales that month (promotions, season, etc.) and replicate strategy in other months.

Since rice is the highest revenue product, prioritize its stock availability and consider bundling it with slower-moving items to boost overall sales.

Awareness about the business should be increased, especially at the Ife branch.
